

SHORT SALE DISCLOSURE

BROKERAGE

LISTING AGENT

Property Address: 2701 Taylor St NE Minneapolis MN 55415
 Seller: Jay Gregison Buyer: _____

This disclosure will serve as an independent agreement and relates to contact executed by the buyer and seller named above. It is expressly understood by all parties that the seller owes more than the amount of the contract and is unable to bring cash to closing therefore the sale will require the approval of the lender.

Please note that the property will continue to be on the market until the lender accepts an offer.

Following are some potential issues that can affect a short sale:

1. After the lender receives the short sale packet, the lender may require at least 30-45 business days to approve the short sale. After approval, the sale must close within lender approved time frame, typically 30 calendar days.
2. The seller will receive no cash from this transaction. Any funds usually due to the seller will be paid to the lender.
3. The seller has no additional cash and will be unable to pay for any closing costs, such as the buyer's appraisal or income warranty. Should the buyer desire a home warranty they are free to purchase one at closing.
4. The seller may be unable to pay for maintaining the property. The property will remain in the current condition through closing; the seller will not be able to make any repairs to the property.
5. The seller's broker will split the commission 50/50 with the buyer's broker on any commission paid by the lender that is under what has been advertised in the MLS. Please note that since the lender is taking less than what is owed to them in a short sale, the lender in some cases may negotiate a lower commission percentage.
6. The seller's forgiven or cancelled debt may be taxable income. The seller should discuss this matter with a tax professional. This has no bearing whatsoever on the buyer.
7. In some cases the lender may pursue a deficiency judgment against the seller for any funds not collected at closing. This has no bearing whatsoever on the buyer.

By signing this disclosure, you acknowledge that you have read and understand these situations. Any changes to the commission rate will be provided by the lender at the time of the lender's final approval of this short sale.

243. **O. WATER INTRUSION AND MOLD GROWTH:** Recent studies have shown that various forms of water intrusion
244. affect many homes. Water intrusion may occur from exterior moisture entering the home and/or interior moisture
245. leaving the home.

246. Examples of exterior moisture sources may be

- 247. • improper flashing around windows and doors,
- 248. • improper grading,
- 249. • flooding,
- 250. • roof leaks.

251. Examples of interior moisture sources may be

- 252. • plumbing leaks,
- 253. • condensation (caused by indoor humidity that is too high or surfaces that are too cold),
- 254. • overflow from tubs, sinks or toilets,
- 255. • firewood stored indoors,
- 256. • humidifier use,
- 257. • inadequate venting of kitchen and bath humidity,
- 258. • improper venting of clothes dryer exhaust outdoors (including electrical dryers),
- 259. • line-drying laundry indoors,
- 260. • houseplants—watering them can generate large amounts of moisture.

261. In addition to the possible structural damage water intrusion may do to the property, water intrusion may also result
262. in the growth of mold, mildew and other fungi. Mold growth may also cause structural damage to the property.
263. Therefore, it is very important to detect and remediate water intrusion problems.

264. Fungi are present everywhere in our environment, both indoors and outdoors. Many molds are beneficial to
265. humans. However, molds have the ability to produce mycotoxins that may have a potential to cause serious health
266. problems, particularly in some immunocompromised individuals and people who have asthma or allergies to
267. mold.

268. To complicate matters, mold growth is often difficult to detect, as it frequently grows within the wall structure. If you
269. have a concern about water intrusion or the resulting mold/mildew/fungi growth, you may want to consider having the
270. property inspected for moisture problems before entering into a purchase agreement or as a condition of your
271. purchase agreement. Such an analysis is particularly advisable if you observe staining or musty odors on the
272. property.
